

BESSEY® VarioClippix®

Double Jaw Variable Spring Clamp

Simply better.

The VarioClippix® with double-jaws is a clever variation on our already popular VarioClippix (XV5-100). BESSEY® has added a second sliding arm to the XV5 to expand it's clamping capacity up to 6 1/2 inches. This versatile clamp can be operated with one hand and is lightweight, functional and extremely stable.

- 1 Rapid-action, polyamid, sliding top jaw and sliding bottom jaw infinitely adjusts up to 6 1/2 inches.
- 2 Ergonomic 2-component handle - designed for comfort and a firm grip.
- 3 Soft-touch swivel pads for a firm non-marring grip.
- 4 Comes in a 12 pack master carton (full colour shelf display).
- 5 Individually packaged on a retail-ready backer card.

Catalog Number	Clamping Capacity	Throat Depth	Master Carton Code	UPC Code
